

Energy Efficiency

Keep the Heat Inside

Save money, save energy
and be more comfortable
year round!

Upgrade or Seal Areas Where Heat Leaks Occur

1. service entry
2. foundation cracks
3. doors
4. electrical outlets
5. windows
6. sills and headers
7. ceiling penetrations into the attic
8. attic hatch
9. chimney
10. exhaust vent

Add or Improve Insulation

There are many types of insulation available. Find the right product for the area you are trying to insulate such as:

- Fiberglass Batts
- Rigid Foam Panels
- Spray Foam
- Loose Fill
- Mineral Fiber Batts & Panels
