Efficiency Plan
With Greenplanet
Staff

First Prize Set - Draw 4

Contributed by Three Nations Energy

Solar Powered 12V Battery Trickle Charger - for vehicle or boat

A solar battery trickle charger uses solar energy to charge 12V batteries, typically found in boats, ATV's, snowmobiles, tractors or camper trailers.

Second Prize Set - Draw 5

Donated by the Fort Chipewyan Metis

Battery-Powered Electric Grass Trimmer

This Grass Trimmer or “weed wacker” is a quiet, user friendly yard tool that requires no annoying cords and comes with 2 batteries.
