SOLAR FARM WINS AWARD!

3NE and ATCO received the prestigious Emerald Award in the Energy category at a virtual ceremony June 1st. They were recognized for charting a path to a sustainable future with the construction of Fort Chipewyan's off-grid solar farm & energy storage. The Alberta Emerald Foundation has recognized examples of environmental excellence in Alberta for the last 30 years.

CABIN SOLAR

Greenplanet Energy Analytics was in Fort Chipewyan completing their first cabin installation of the year. 3NE member nations have all have shown interest in this project. 2021 promises to be another busy summer of solar PV installations!

GREEN HARVEST AT K'AI TAILE

The ACFN hydroponics trailer is becoming greener - with spinach! ACFN lead hand Bev Tourangeau announced the first partial harvest. Only some of the leaves have been collected, leaving the rest to continue growing for future harvests.

To celebrate, the K'ai Taile Market had a limited time promotion allowing shoppers to bring home locally grown vegetables for free.

STUDENTS COOK WITH SOLAR

This Spring the 3NE Education Team was busy designing a solar activity and delivering the supplies to educators at the Athabasca Delta Community School and the Fort Chipewyan Community High School. With these kits students will build Pizza Box Solar Ovens and learn about solar thermal energy.
